The first project's requirements and description

UpWork Request Offer

We are a seller of goods online in the Saudi Arabia. We are working on automating our tax filing processes to simplify and streamline. I have completed a Nexus analysis with Avalara and want to get an opinion and advice on requirements and the best path forward for setup.

It will be best to discuss over the phone or video to explain the business situation. should have experience working with Amazon sellers

The proposal for the first project

Hello Adam

My name is Mohamed Abu Emira and I am an expert in **Business analysis** and with more than nine years of experience working with cost and financial data in various accounting and ERP systems. I would love to have the opportunity to discuss your **project over the phone or video to explain** the business situation.

As I mentioned before I worked with Nile for Plastic Industries, but now I am working with Upwork for **(10 \$ for an hour)** as Business Analysis after having experience from Udacity when I graduated from Business Analyst for Enterprise, Data Foundation, Computer Vision Nanodegrees. Actually, **I developed many similar projects working with Amazon sellers** such as **Nicolaus Store and Clothes goods online**.

And about the condition for (experience working with Amazon sellers), I got an exclusive project for working with Amazon Product, So I may present some details for you.

To complete your initial project, I would:

- Review your existing assets
- Construct them into the template
- Includes statements and ratio
- Add a clear viewpoint and explanations.

To make my mission clearer, please provide me with an answer to the below questions

- Are you okay with offering my viewpoint and explanations or you just want to have numbers and statements analysis result so you make your own viewpoint?
- Also, will you require suggestions for your work forecast years?

Thanks for your time and consideration.

Mohamed Abu Emira

The second project's requirements and description

Fiverr Request Offer

I need a skilled and thorough accountant with intimate knowledge of Tax Legislation for my small business.

I operate a retail store and need to file our 2021 VAT and Income Tax Returns. The business is currently registered as a sole proprietorship. We use Odoo accounting software.

The main task will apply from July 2020 when the store opened to June of this year.

I have the financial statements from July 2020 to Dec 2020 reconciled on Odoo but data from Jan 2021 to date is yet to be uploaded and reconciled.

The proposal for the second project

Hello Adam

My name is Mohamed Abu Emira and I am an expert in **Business analysis** and with more than nine years of experience working with cost and financial data in various accounting and ERP systems. I would love to have the opportunity to discuss your project with you.

As I mentioned before I worked with Nile for Plastic Industries, but now I am working with Fiverr for **(10 \$ for an hour)** as Business Analysis after having experience from Udacity when I graduated from Business Analyst for Enterprise, Data Foundation, Computer Vision Nanodegrees. **I developed many relevant projects such as tax Legislation in the Arabian Gulf and Egypt and Odoo accounting software.**

To complete your initial project, I would:

- Review your existing assets
- Construct them into the template
- Includes statements and ratio
- Add a clear viewpoint and explanations for any part in reconciliation.
- Prepare all required financial statements depending on Global Accounting standard

To make my mission clearer, please provide me with an answer to the below questions

- Are you okay with offering my viewpoint and explanations or you just want to have numbers and statements analysis result so you make your own viewpoint?
- Also, will you require suggestions for your work forecast years?

Thanks for your time and consideration.

Mohamed Abu Emira
